

SEMINARIO DI GEOMETRIA E ALGEBRA

UNIBA - POLIBA

Giovedì 1 Giugno 2023 - Ore 15:00 aula III

Dipartimento di matematica

Università degli Studi di Bari Aldo Moro
via Edoardo Orabona 4 - 70125 Bari

Indira Chatterji (Université Côte d'Azur)

Hyperbolic groups

Abstract. A group is called finitely generated if every element can be expressed in terms of a finite subset of elements of the group. We will be discussing hyperbolic groups, a class of finitely generated groups including fundamental groups of closed negatively curved manifolds, as well as some generalizations.
