

# EDP e DINTORNI

VII Meeting around PDE

20 Dicembre 2022, Aula XI, ore 15.00

Dipartimento di Matematica,  
Università degli Studi di Bari Aldo Moro

15.00 Opening

15.05 Serena DIPIERRO (University of Western Australia)

*Nonlocal capillarity theory*

15.40 Marcelo Rempel EBERT (University of São Paulo-Ribeirão Preto, University of Bari Aldo Moro)

*$L^p$ - $L^q$  estimates for wave type Fourier multipliers*

16.15 Break al MuMa

16.30 Alberto MAIONE (University of Freiburg)

*Variational convergences for integral functionals and PDEs depending on vector fields*

17.10 Nico Michele SCHIAVONE (University of Osaka)

*Absence of eigenvalues for perturbations of the Heisenberg sublaplacian*

Organizzatori:

Marcello D'Abbicco, Annunziata Loiudice,  
Sandra Lucente, Alessandro Palmieri
