VIII Meeting around Partial Differential Equations

19 Dicembre 2023, Aula VI, ore 15.00

Dipartimento di Matematica,
Università degli Studi di Bari Aldo Moro

15.00-15.10 Opening

15.10-15.45 Giuseppe Negro (Instituto Superior Técnico, Lisboa)

Global non-scattering solutions for the cubic wave equation

15.50-16.10 Tea break

16.10-16.45 Alessandra De Luca (Università degli Studi di Torino)

Nonlocal capillarity with anisotropic kernels

16.50-17.25 Halit Sevki Aslan (Universidade de São Paulo (USP), Ribeirão Preto)

Global existence of solutions for semilinear damped wave models with general relaxation function

17.30 Closing

Organizzatori:

Marcello D'Abbicco, Annunziata Loiudice, Sandra Lucente, Alessandro Palmieri
