

Mediterranean Journal of Mathematics
Vol. 11, No. 4(2014) pages 1047 - 1287

Contents

M. Tunç <i>Some Hadamard Like Inequalities Via Convex and s-Convex Functions and Their Applications for Special Means.....</i>	1047-1059
J. Brox, E. Garcia and M. Gomez Lozano <i>An Elemental Characterization of Orthogonal Ideals in Lie Algebras.....</i>	1061-1067
R. E. Castillo, N. Merentes and H. Rafeiro <i>Bounded Variation Spaces with p-Variable.....</i>	1069-1079
R. Kantrowitz and M. M. Neumann <i>Some Real Analysis behind Optimization of Projectile Motion.....</i>	1081-1097
R. Bartolo <i>Multiplicity Results for a Class of Quasilinear Elliptic Problems.....</i>	1099-1113
R. P. Agarwal, M. Bohner, T. Li and C. Zhang <i>Comparison Theorems for Oscillation of Second-Order Neutral Dynamic Equations.....</i>	1115-1127
A. Miranville <i>Existence of Strong Solutions for a Fully Hyperbolic Phase-Field Model Based on Type III Heat Conduction with a Logarithmic Nonlinear Term</i>	1129-1148
S. Aouaoui <i>Eigenvalue Problem with Nonstandard Growth Conditions and Involving Concave and Convex Nonlinearities.....</i>	1149-1169
T. Catinăş <i>Bivariate Quasi-Interpolation Operator of Bernoulli Type.....</i>	1171-1183
M. Abel and M. Abtahi <i>Description of Closed Maximal Ideals in Topological Algebras of Continuous Vector-Valued Functions.....</i>	1185-1193
S. Bertoni <i>Stability of CD-Systems Under Perturbations in the Favard Class.....</i>	1195-1204
M. Kian and S.S. Dragomir <i>Operator Inequalities Involving Superquadratic Functions.....</i>	1205-1214

C. Carpintero, D. Muñoz, E. Rosas, J. Sanabria and O. Garcia <i>Generalized Weyl's Theorems and Restrictions for Bounded Linear Operators.....</i>	1215-1228
F.J. Palomo, F.J. Rodriguez and A. Romero <i>New Characterizations of Compact Totally Umbilical Spacelike Surfaces in 4-Dimensional Lorentz-Minkowski Spacetime Through a Lightcone</i>	1229-1240
G. Özkan and A. Yücesan <i>Relaxed Hyperelastic Curves on a Non-Degenerate Surface.....</i>	1241-1250
S. Aslanci and R. Cakan <i>On a Cotangent Bundle with Deformed Riemannian Extension.....</i>	1251-1260
I. Ivanšić and L. R. Rubin <i>The Topology of Limits of Direct Systems Induced by Maps.....</i>	1261-1273
E. de Amo, M. Díaz Carrillo and J.F. Sánchez <i>Copulae, Self-Affine Functions, and Fractal Dimensions.....</i>	1275-1287
