

Mediterranean Journal of Mathematics
Vol. 2, No. 3(2005), pages 243 - 365

Contents

L. Kamoun and K. Trimèche <i>An Analogue of Beurling-Hörmander's Theorem Associated with Partial Differential Operators</i>	243
R.Vandebril, M. Van Barel and N. Mastronardi <i>An Implicit Q-Theorem for Hessenberg-Like Matrices.....</i>	259
T. Hänninen and J. Taskinen <i>Atomic Decomposition of a Weighted Inductive Limit in C^n</i>	277
B. Chakraborty, S. Nanda and M.P. Biswal <i>Equivalence of the Generalized Vertical Block Linear Complementarity Problems and Linear Complementarity Problems.....</i>	291
C. Trapani and F. Tschinke <i>Unbounded C^*-Seminorms and Biweights on Partial $*$-Algebras.....</i>	301
G. Mora <i>Minimizing Multivariable Functions by Minimization-Preserving Operators.....</i>	315
N.E. Alaa and J.R. Roche <i>Theoretical and Numerical Analysis of a Class of Nonlinear Elliptic Equations.....</i>	327
A.G. García and M.A. Hernández-Medina <i>Sampling Theory Associated with a Symmetric Operator with Compact Resolvent and De Branges Spaces.....</i>	345
J.M. Tchuenche <i>The Effects of Migration on the Transmission Dynamics of Sickle-Cell Anaemia.....</i>	357
