

Mediterranean Journal of Mathematics
Vol.23 No.5, 2026 – Articles - pp.1-694

<http://link.springer.com/journal/volumesAndIssues/9>

N. C. Bernardes Jr., A. Bonilla and J. V. A. Pinto

On the Dynamics of Weighted Composition Operators II pag.1-26 Article:146

D. Costarelli and D. Lavella

Semi-discrete Moduli of Smoothness and Their Applications in One- and Two-Sided Error Estimates pag.1-28 Article:147

A. J. Durán

Zeros of Linear Combinations of Orthogonal Polynomials pag.1-20 Article:148

E. Akyar and H. Akyar

Fibonacci Numbers of Generalized Fibonacci Graphs pag.1-19 Article:149

Q. Jiang, C. Shao and Q. Wang

A Nilpotency Criterion for Finite Groups by the Conjugacy Class Sizes of Almost Primary Elements pag.1-15 Article:150

T. Sasahara

Hamiltonian Stationary Lagrangian Surfaces with Harmonic Mean Curvature in Complex Space Forms pag.1-11 Article:151

T. Zhao

Necessary and Sufficient Conditions for Absolute Monotonicity of Functions Related to Gaussian Hypergeometric Functions..... pag.1-22 Article:152

U. Erdur and N. G. Göğüş

Edwards's Theorem in Banach Lattice Setting pag.1-20 Article:153

A. A. Heliel, M. M. Al-Shomrani and A. Ballester-Bolinchés

On σ -Normal Subgroups of Finite σ -Soluble Groups pag.1-12 Article:154

T. Ohno and T. Shimomura

Sobolev Inequalities in Non-homogeneous Central Musielak–Orlicz–Morrey Spaces over Metric Measure Spaces and Double Phase Functionals pag.1-24 Article:155

M. E. A. Yahiaoui and A. Saadi

Existence and Uniqueness of Solutions for a Class of One-Dimensional Free Boundary Stationary Problems pag.1-20 Article:156

G. S. Barbosa

Linear Spaces of Rational Integrable 1-Forms pag.1-12 Article:157

S. Bonvicini, T. Pisanski and A. Žitnik

On the Hamiltonian Bicirculars pag.1-22 Article:158

- G. A. Braga, J. M. Moreira, A. M. da Silva and C. F. Souza**
A Renormalization Group Approach to Higher Order Corrections to the Decay of Solutions to Nonlinear Integral Equationspag.1-17 Article:159
- N. Van Y and N. Trong**
On a Viscoelastic Pseudo-parabolic Equation of Kirchhoff Type with Logarithmic Nonlinearitypag.1-34 Article:160
- J. Si**
Linearizable Holomorphic Solutions for Second-Order Differential Equations with State-Dependent Delaypag.1-14 Article:161
- J. Appell, B. López, S. Reinwand and K. Sadarangani**
Positive Mild Solutions of Fractional Differential Equations with Infinite-Point Boundary Value Conditionspag.1-12 Article:162
- K. İçaçan and Y. Yaylı**
Minimal Angular Velocity Motions on Stationary Acceleration Curves with the Frenet Frame in E^3 pag.1-15 Article:163
- Z. Zhou and S. Li**
Exact Results for Generalized Turán Number of a Linear Forest and a Cliquepag.1-26 Article:164
- M. Hong, C.L. Lin, A. Kaur and T. E. Simos**
A Novel Amplification-Fitted and Phase Controlled 6-Point Block Method for Second-Order Oscillatory Problemspag.1-47 Article:165
- A. Elsharkawy, U. C. De and A. M. Tawfiq**
Geometric and Physical Properties of Twisted Sequential Warped Product Manifolds with Applicationspag.1-24 Article:166
- N. Nanda and M. Singh**
Quasitoric Representation of Generalized Knotspag.1-22 Article:167
- W. Haider, H. Budak, A. Shehzadi, A. Mateen and H. Chen**
Error Bounds for Boole's Formula Across Diverse Function Classes with Applications to Riemann–Liouville Fractional Integrals and Numerical Analysis.....pag.1-24 Article:168
- J. Lee**
Almost Kenmotsu 3-Manifolds with Cyclic Semi-parallel Characteristic Jacobi Operatorpag.1-15 Article:169
- S. Wang**
Some Characterizations of Weak Left Bracespag.1-21 Article:170

M. Knor, J. Sedlar, R. Skrekovski and X. Zhang

Counting Geodesic Paths in Graphs.....pag.1-26 Article:171

S. H. J. Petroudi, A.H. Ansari, S.H. Khan and S. Radenovic

Fixed Point Theorems for $(F, \psi, \phi, \alpha, 1 - \alpha)$ -Type Contractive and Convex Contractive Mappings in Metric Spacespag.1-15 Article:172

D. Bricalli

Linear Spaces in Hessian Loci of Cubic Hypersurfaces.....pag.1-38 Article:173

S. Yang and Y. Li

Existence and Asymptotic Stability of Positive Periodic Solutions for a Class of Neutral Evolution Equation with Delaypag.1-47 Article:174

I. Bajunaid and F. Colonna

Hermite–Hadamard Inequalities for Subharmonic Functions on R^n : A Potential-Theoretic Approach.....pag.1-11 Article:175

E. Chil and M. Bahri

Continuous Separating Maps on Riesz Spaces.....pag.1-13 Article:176

Z. Guo and X. Zhao

Generalized Stević–Sharma Operators from Weighted Bergman Spaces Induced by Doubling Weights into Zygmund-Type Spacespag.1-24 Article:177

Lin Chen and Qin Wang

The Hybrid Rapid Decay Property of Compactly Generated Locally Compact Groupspag.1-20 Article:178
