

Mediterranean Journal of Mathematics
Vol. 3(2006), No. 3-4, pages 347 – 592

A special issue dedicated to the memory of

Professor Aldo Cossu, 1922 - 2005

Contents

G. Faina and G. Korchmáros <i>Aldo Cossu's work in finite geometry.....</i>	pp.347
F. Altomare and V. Leonessa <i>On a sequence of positive linear operators associated with a continuous selection of Borel measures.....</i>	p.361
P. Amodio and F. Iavernaro <i>Symmetric boundary value methods for second order initial and boundary value problems</i>	p.381
E. Barletta and S. Dragomir <i>On the curvature groups of a CR manifold.....</i>	p. 397
V. Benci and D. Fortunato <i>Existence of 3D-vortices in Abelian gauge theories.....</i>	p. 407
M. Bendahmane, G. M. Coclite and K. H. Karlsen <i>H^1-perturbations of smooth solutions for a weakly dissipative hyperelastic-rod wave motion</i>	p.417
L. Borzacchini <i>Why rob Archimedes of his Lemma ?.....</i>	p.431
R. Caddeo, S. Montaldo, C. Oniciuc and P. Piu <i>The Euler-Lagrange method for biharmonic curves.....</i>	p.447
G. Calvaruso and R. A. Marinosci <i>Homogeneous geodesics of three-dimensiona lunimodular Lorentzian Lie groups</i>	p.465
A. M. Candela and A. Salvatore <i>Multiple solitary waves for non-homogeneous Schrödinger-Maxwell equations.....</i>	p.481
S. Cingolani and G. Vannella <i>Morse index and critical groups for p-Laplace equations with critical exponents.....</i>	p.493
J. M. Cohen and F. Colonna <i>Preimages of one-point sets of Bloch and normal functions.....</i>	p. 513

L. Di Terlizzi	
<i>Scalar and φ-sectional curvature of a certain type of metric f-structures</i>	
.....	p.533
M. Falcitelli and A. M. Pastore	
<i>f-structures of Kenmotsu type</i>	p.549
L. Galeone and R. Garrappa	
<i>On multistep methods for differential equations of fractional order</i>	p.565
S. Ianus, R. Mazzocco and G. E. Vîlcu	
<i>Real lightlike hypersurfaces of paraquaternionic Kähler manifolds</i>	p.581
