Contents

L. Arlotti, J. Banasiak and B. Lods

A New Approach to Transport Equations Associated to a Regular Field:

Trace Results and Well-Posedness.....pp. 367-402

A. Balthasar

Formality of the Constructible Derived Category for Spheres:

A Combinatorial and a Geometric Approach..... pp. 403-430

K. Nourouzi and S. Shabanian

Operators Defined on n -Modular Spaces.....pp. 431-446

S. Djebali, T. Moussaoui and R. Precup

Fourth-Order p -Laplacian Nonlinear Systems via the Vector Version of Krasnosel'skii's

Fixed Point Theorem.....pp. 447-460

M. Amouch

Polaroid Operators with SVEP and Perturbations of Property (gw)....pp. 461-470

M. Peña, F. Puerta and X. Puerta

A Sufficient Condition for Lipschitz Stability of Controlled Invariant Subspaces.....pp. 471-481

I. Bucataru and R. Miron

The Geometry of Systems of Third Order Differential Equations Induced

by Second Order Regular Lagrangians pp. 483-500

D.E. Otera and F. Russo

On the WGSC Property in Some Classes of Groups..... pp. 501-508
